DETAILED ACTION

Allowable Subject Matter

1. Claims 1,3-9,11-19 are allowed over the prior art of record.

2. The following is a statement of reasons for the indication of allowable subject matter:

As per the independent claims, the recited claim limitations pertaining to a third calculation calculating inter-pitch mark distances, in addition to the first two pitch calculations, are not explicitly taught by the prior art of record. As per the prior art of record, Kagoshima et al (5890118) teaches a speech synthesis apparatus/program code using pitch marks comprising (col. 3 lines 22-42) first calculation means for calculating a distance between first two pitch marks of a voice portion of speech data to be processed (col. 6 lines 61-67) and second calculation means for calculating a difference between adjacent inter pitch mark distances (col. 7 lines 1-13) and management means for storing the calculation results obtained by said first and second calculation means in a file and managing the results (as storing the adjusted waveforms that contain the pitch information -- col. 11 line 65 to col. 12 line 9). However, Kagoshima et al (5890118) does not explicitly teach the interpitch mark calculation as recited in the independent claims, noted above. Furthermore, it would not have been obvious to one of ordinary skill in the art of speech pitch tracking to modify the teachings of the prior art of record to obtain the recited limitations of the independent claims as noted above.
